Art Unit: 1626

Receipt is acknowledged of the preliminary amendment filed December 17, 2004 and the information disclosure statements filed June 27, 2005 and October 18, 2006, which have been entered in the file.

Claims 19, 21 and 23 are objected to because of the following informalities: in claims 19, 21 and 23, "diazo" should be changed to "disazo" to be consistent with the language used in claims 1, 20 and 22 on which they depend. Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 19, 21 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Jung et al. (US 5559216) or Mory et al. (US 3956266), cited by applicants.

The references disclose the claimed diazo pigments of the formula (I) wherein D¹ and D² are benzimidazolone, phenmorpholinone or naphthalimide which are substituted by H, Cl, methyl or methoxy and R¹ and R² are selected from H, methyl, methoxy and Cl. Note Example 29 of Jung et al. and Examples 1,

6, 7, 9-24, 64-104 and 139 of Mory et al. The pigments are the same regardless of the process by which they are prepared.

Claims 1 to 18, 20 and 22 are allowed.

The references made of record and not relied upon show the state of the art.
